

SkillSphere – Salesforce Based Mentorship Management System

Project Documentation

1. Introduction

1.1 Overview

SkillSphere is a Salesforce-based Mentorship Management System developed to manage mentor-learner interactions, mentorship requests, learning sessions, student skill tracking, and automated workflow processes.

The system helps learners request mentorship for specific skills, allows mentors to approve or reject requests, automatically creates mentorship sessions, tracks student learning progress, and generates reports and dashboards for analytics.

The project uses Salesforce CRM features such as:

- Custom Objects
- Relationships
- Record-Triggered Flows
- Validation Rules
- Email Automation
- Reports
- Dashboards
- Profiles and Roles

2. Problem Statement

Traditional mentorship management systems are often manual and difficult to manage. Tracking learner requests, mentor approvals, session scheduling, and learning progress becomes inefficient when handled manually.

Problems in traditional systems include:

- Manual request management
- No automated approval process
- Difficulty tracking learning progress
- Lack of analytics and dashboards
- No centralized mentorship platform
- Poor communication between learners and mentors

3. Proposed Solution

SkillSphere provides an automated Salesforce CRM solution for mentorship management.

The system:

- Allows learners to request mentorship
- Enables mentors to approve or reject requests
- Automatically creates mentorship sessions
- Tracks learning progress automatically
- Sends automated email notifications

- Provides dashboards and reports for analytics
- Maintains centralized mentorship records

4. Objectives

The main objectives of the project are:

1. Automate mentorship request handling
2. Simplify mentor-learner communication
3. Track student learning progress
4. Automate session management
5. Provide analytics using reports and dashboards
6. Implement validation and business logic
7. Improve mentorship workflow efficiency

5. Technologies Used

Technology	Purpose
Salesforce CRM	Main platform
Salesforce Flow	Automation
Validation Rules	Data validation
Reports & Dashboards	Analytics
Email Alerts	Notifications
Custom Objects	Data storage
Relationships	Data connectivity

6. System Modules

6.1 Student Management

This manages learner and mentor records.

Features:

- Create learner records
- Create mentor records
- Store role information
- Store email details
- Maintain user skill information

6.2 Skill Management

This manages available skills.

Features:

- Create skills
- Categorize skills

- Link skills to mentorship requests
- Link skills to student learning

6.3 Mentorship Request

This allows learners to request mentorship.

Features:

- Learner submits mentorship request
- Mentor assigned to request
- Request approval workflow
- Request status tracking

Statuses:

- Pending
- Approved
- Rejected

6.4 Mentorship Session

This manages mentorship sessions.

Features:

- Automatic session creation
- Session scheduling
- Session completion tracking
- Feedback management

Session Statuses:

- Scheduled
- In Progress
- Completed

6.5 Student Skill Tracking

This tracks learner progress for each skill.

Features:

- Automatic student skill creation
- Learning progress updates
- Skill learning status tracking

Learning Statuses:

- Not Started
- In Progress
- Completed

6.6 Email Notification

This sends automated email notifications.

Features:

- Mentor notification when request created

- Learner notification when request approved/rejected

6.7 Reports & Dashboard

This provides analytics.

Features:

- Request status reports
- Session tracking reports
- Learning progress reports
- Dashboard charts
- Real-time analytics

7. Custom Objects

7.1 Student Object

Stores learner and mentor information.

Fields

Field Name	Type
Student Name	Text
Role	Picklist
Email	Email
Department	Picklist
Academic year	Picklist
Bio	Long Text
Availability	Picklist

Role Values:

- Learner
- Mentor

7.2 Skill Object

Stores available skills.

Fields

Field Name	Type
Skill Name	Text
Category	Picklist/Text
Difficulty Level	Picklist
Description	Long TextArea
Demand Score	Number

7.3 Mentorship Request Object

Stores mentorship requests.

Fields

Field Name	Type
Mentorship Request Name	Text
Learner	Lookup(Student)
Mentor	Lookup(Student)
Skill	Lookup(Skill)
Request Status	Picklist
Approved By Role	Picklist
Preferred Timing	Picklist

Request Status Values:

- Pending
- Approved
- Rejected

Approved By Role Values:

- Mentor
- Admin

7.4 Mentorship Session Object

Stores mentorship session details.

Fields

Field Name	Type
Session Name	Auto Number
Mentor	Lookup(Student)
Learner	Lookup(Student)
Skill	Lookup(Skill)
Completion Status	Picklist
Feedback	Long Text
Related Request	Lookup(Mentorship Request)

Completion Status Values:

- Scheduled
- In Progress
- Completed

7.5 Student Skill Object

Tracks learner progress for skills.

Fields

Field Name	Type
Student	Lookup(Student)
Skill	Lookup(Skill)
Skill Level	Picklist
Learning Status	Picklist

Learning Status Values:

- Not Started
- In Progress
- Completed

8. Relationships

Parent Object	Child Object	Relationship
Student	Mentorship Request	Lookup
Student	Mentorship Session	Lookup
Skill	Mentorship Request	Lookup
Skill	Student Skill	Lookup
Mentorship Request	Mentorship Session	Lookup
Student	Student Skill	Lookup

9. Salesforce Flows

9.1 Auto Create Student Skill Flow

Purpose: Automatically creates a Student Skill record when a learner submits a mentorship request for a skill that does not already exist.

Flow

9.2 Session Creation Flow

Purpose: Automatically creates a mentorship session when a request is approved.

Flow

9.3 Session Learning Status Flow

Purpose: Automatically updates learning status based on session completion status.

Flow

9.4 Mentor Notification Flow

Purpose: Sends email notification to mentor when learner submits mentorship request.

Flow

9.5 Learner Notification Flow

Purpose: Sends email notification to learner when request is approved or rejected.

Flow

10. Validation Rules

10.1 Student Email Validation

Purpose: Ensures valid email format.

Formula

`NOT( REGEX( Email__c, “^+@[A-Za-z0-9.-]+\.[A-Za-z]{2,}$” ) )`

Error Message: Please enter a valid email address.

10.2 Approval Role Validation

Purpose: Ensures Approved By Role is selected when request is approved.

Formula

`AND(ISPICKVAL(Request_Status__c, “Approved”),
ISBLANK(TEXT(Approved_By_Role__c)))`

Error Message: Please select who approved the request.

11. Reports

The following reports were created:

Report Name	Purpose
Mentorship Request Status Report	Tracks request approvals
Mentorship Session Report	Tracks session status
Student Skill Progress Report	Tracks learning progress

12. Dashboards

The SkillSphere dashboard provides visual analytics.

Dashboard Components:

Component	Type
Request Status Distribution	Pie Chart
Session Completion Status	Bar Chart
Learning Progress Analytics	Donut/Pie Chart

Dashboard Features:

- Real-time analytics
- Dynamic updates
- Visual reporting
- CRM insights

13. Profiles and Roles

Learner Profile Permissions

- Create mentorship requests
- View sessions
- View skills
- Cannot approve requests
- Cannot manage sessions

Mentor Profile Permissions

- Approve/reject requests
- Create and manage sessions
- Update learning status
- View learner progress

Admin Profile Permissions

- Full access to all objects
- Manage automation and reports
- System administration

14. Workflow Example

In a college environment, students often require guidance and mentorship for learning new technical skills. Managing mentorship requests manually can become difficult for mentors and administrators.

Step 1: Student Registration

In this example, a learner named Gopi Rathod wants to learn Salesforce Admin and requests mentorship from a mentor named Ishani Chavan through the SkillSphere system.

Learner Profile:

The screenshot shows a web browser window displaying the SkillSphere Student Dashboard for a user named Gopi Rathod. The browser's address bar shows a URL from Trailblaze Lightning Force. The dashboard has a top navigation bar with a search bar and various icons. Below this is a main navigation menu with options like Dashboards, Home, Reports, Files, Tasks, Calendar, Groups, Students (selected), Skills, Student Skills, Mentorship Requests, and Mentorship Sessions. The user's name, Gopi Rathod, is displayed at the top of the main content area, along with buttons for 'New Contact', 'Edit', and 'New Opportunity'. The dashboard is divided into two main sections: a left sidebar with tabs for 'Details', 'Skills', 'Sessions', 'Requests', and 'Achievements', and a right main content area. The 'Details' tab is active, showing a form with three sections: 'Student Information', 'Profile Details', and 'Performance and status'. Each section contains several fields with edit icons. The 'Student Information' section includes fields for Email (gopirathod352@gmail.com), Academic Year (3rd Year), Role (Learner), Department (CSE), and Student Name (Gopi Rathod). The 'Profile Details' section includes fields for Bio and Availability (Morning). The 'Performance and status' section includes a field for Skill Score. The right main content area displays a welcome message: 'Welcome to SkillSphere Student Dashboard. Track mentorship, skills, achievements, and collaboration activities.'

Section	Field	Value
Student Information	Email	gopirathod352@gmail.com
	Academic Year	3rd Year
	Role	Learner
	Department	CSE
	Student Name	Gopi Rathod
Profile Details	Bio	
	Availability	Morning
Performance and status	Skill Score	

Mentor Profile

The screenshot shows the SkillsSphere Student Profile for Ishani Chavan. The interface includes a top navigation bar with a search bar and various menu items. The main content area is divided into sections for Student Information, Profile Details, and Performance and status. The Student Information section includes fields for Email, Academic Year, Final Year, Role, Mentor, Department, and Student Name. The Profile Details section includes fields for Bio, Salesforce Admin, Availability, and Evening. The Performance and status section includes a Skill Score. A welcome message on the right side of the profile states: "Welcome to SkillsSphere Student Dashboard. Track mentorship, skills, achievements, and collaboration activities."

Welcome to SkillsSphere Student Dashboard
Track mentorship, skills, achievements, and collaboration activities.

Step 2: Creation of Skill

First, the mentor and learner records are created in the system. Then, the skill “Salesforce Admin” is added to the Skill object.

The screenshot shows the SkillsSphere Skill Profile for Salesforce Administration. The interface includes a top navigation bar with a search bar and various menu items. The main content area is divided into sections for Related, Details, and Activity. The Details section includes fields for Skill Name, Category, Difficulty Level, Description, Demand Score, Active Status, Created By, and Last Modified By. The Activity section includes a list of activities and a button to show all activities.

[Show All Activities](#)

Step 3: Mentorship Request Creation

The learner submits a mentorship request by selecting the mentor and skill. Once the request is submitted, the system automatically creates a Student Skill record if the learner does not already have that skill.

The screenshot shows the 'CRM Mentorship Request' page in the SkillSphere application. The page is divided into two main sections: 'Details' and 'Activity'.

Details Section:

- Mentorship Request Name:** CRM Mentorship Request
- Skill:** Salesforce Administration
- Learner:** Gopi Rathod
- Mentor:** Ishani Chavan
- Request Status:** Pending
- Preferred Timing:** Evening
- Approved By Role:** Mentor
- Created By:** Soniya Rathod, 14/05/2026, 11:22 am
- Last Modified By:** Soniya Rathod, 14/05/2026, 10:44 pm

Activity Section:

- Filters:** All time • All activities • All types
- Refresh • Expand All • View All**
- Upcoming & Overdue:** No activities to show. Get started by sending an email, scheduling a task, and more.
- Show All Activities**

Step 4: An automated email notification is sent to the mentor informing them about the mentorship request.

The screenshot shows a Gmail inbox with a search filter for 'in:spam'. The email is titled 'New Mentorship Request' and is marked as 'Spam'.

Header:

- From:** Soniya Rathod soniyarathod712@gmail.com
- To:** me
- Date:** 11:22 AM (11 hours ago)

Body:

Report not spam

Hello Ishani Chavan,

A learner has submitted a mentorship request in SkillSphere.

Learner Name: Gopi Rathod

Skill: Salesforce Administration

Please log in to SkillSphere to review the request.

Thank you,

SkillSphere Team

Footer:

- Reply
- Forward

Automatically the Student Skill is created after the Mentorship Request is sent.

Step 5: The mentor reviews the request and changes the request status to “Approved” and email is sent to Learner. After approval, the system automatically creates a mentorship session with the status “Scheduled”.

Approved Email sent to Learner

Approval Mentorship Request

This screenshot shows the 'CRM Mentorship Request' record in Salesforce. The interface includes a top navigation bar with 'SkillSphere' and various menu items. The main content area is divided into 'Related' and 'Details' sections. The 'Details' section contains fields for 'Mentorship Request Name', 'Skill', 'Learner', 'Mentor', 'Request Status', 'Preferred Timing', 'Approved By Role', 'Created By', and 'Last Modified By'. The 'Activity' section on the right shows a list of activities with filters and a 'Show All Activities' button.

Upcoming & Overdue

No activities to show.

Get started by sending an email, scheduling a task, and more.

To change what's shown, try changing your filters.

Show All Activities

Step 6: When the session begins, the mentor updates the session status to “In Progress”, and the learner’s learning status is automatically updated to “In Progress”.

The screenshot shows the SkillsSphere interface for a Mentorship Session (SES-0008). The page has a top navigation bar with a search bar and various icons. Below the navigation bar, there's a sidebar with a list of menu items: Dashboards, Home, Reports, Files, Tasks, Calendar, Groups, Students, Skills, Student Skills, Mentorship Requests, and Mentorship Sessions. The main content area is divided into two sections. The left section, titled "Mentorship Session", contains a form with fields for Mentorship Session Name (SES-0008), Mentor (Ishani Chavan), Learner (Gopi Rathod), Skill (Salesforce Administration), Session Date (14/05/2026), Duration, Completion Status (In Progress), Feedback, Related Request (CRM Mentorship Request), and Student Skill. The right section, titled "Activity", shows a list of activities with filters for All time, All activities, and All types. It also includes a "Show All Activities" button and a "Refresh" button.

Student Learning Status changes to in progress

The screenshot shows the SkillsSphere interface for a Student Skill (SS-0009). The page has a top navigation bar with a search bar and various icons. Below the navigation bar, there's a sidebar with a list of menu items: Dashboards, Home, Reports, Files, Tasks, Calendar, Groups, Students, Skills, Student Skills, Mentorship Requests, and Mentorship Sessions. The main content area is divided into two sections. The left section, titled "Student Skill", contains a form with fields for Student Skill Name (SS-0009), Student (Gopi Rathod), Skill (Salesforce Administration), Skill Level (Beginner), Learning Status (In Progress), and Created By (Soniya Rathod). The right section, titled "Activity", shows a list of activities with filters for All time, All activities, and All types. It also includes a "Show All Activities" button and a "Refresh" button.

Step 7: After successful completion of the mentorship session, the mentor marks the session as “Completed”. The system then automatically updates the learner’s skill learning status to “Completed”.

Dashboard

15. Advantages of the System

- Fully automated workflow
- Easy mentorship tracking
- Centralized management
- Real-time analytics
- Reduced manual work
- Improved learner monitoring
- Better mentor coordination

16. Future Enhancements

Future improvements can include:

- AI-based mentor recommendations
- Experience Cloud portal
- Mobile application integration
- Attendance tracking
- Certification generation
- Chat integration
- Automated reminders
- Approval process implementation

17. Conclusion

SkillSphere successfully demonstrates the implementation of a Salesforce-based Mentorship Management CRM system.

The project automates mentorship workflows, session management, skill tracking, and analytics using Salesforce CRM features.

The system improves mentorship coordination, reduces manual processes, and provides real-time visibility into learner progress.

The project showcases practical implementation of:

- Salesforce automation
- CRM workflows
- Business logic validation
- Reporting and analytics
- Data management
- Enterprise workflow concepts

SkillSphere serves as a professional Salesforce CRM project suitable for academic demonstration and practical learning.
